

Axel Soler

FULL-STACK WEB DEVELOPER | React Specialist

axelsolerdev@gmail.com | [Github](#) | [LinkedIn](#) | [Portfolio](#) | +5492235930250

SUMMARY

Full-Stack Developer with a strong passion for combining technology and human connection. I enjoy turning complex ideas into simple, user-friendly applications that truly solve problems and bring value to people, while fostering collaboration and growth in agile, remote teams.

SKILLS

- **Front-End:** JavaScript (ES6+), TypeScript, ReactJS, Next.js, Angular, React Native, Redux, TailwindCSS, HTML5, CSS3
- **Back-End:** NodeJS, Ruby, Ruby on Rails, MySQL, PostgreSQL, MongoDB, Docker, Supabase
- **Tools & Methods:** Git, GitHub, AWS, AI Tools, Vercel, Mobile/Responsive Development, RSpec, Chrome DevTools
- **Soft Skills:** Remote Pair-Programming, Teamwork, Scrum, Agile Project Environment, Patience, Hard Work

EXPERIENCE

GoodSoftwareDev

Senior Frontend Developer

Remote

June 2023 – September 2025

- **Led the front-end development of 3 projects**, improving performance and overall maintainability across codebases.
- **Built [GHS](#)**, a React-based web application designed to manage a school football team. Owned the entire front-end codebase: public and private players-coaches profiles, match schedules, and contact, plus an admin application.
- **Collaborated closely with backend developers**, contributing to Node.js tasks and enabling smoother API integrations and faster feature delivery.

Junior Frontend Developer

December 2022 – June 2023

- **Front-End Contributor.** Actively collaborated on multiple internal projects as a front-end specialist.
- **Developed [RP-1](#).** A campaign marketing platform that interacts with over 40,000 people daily, enabling users to create and track SMS/email marketing campaigns.
- **Actively participated in a remote, collaborative, and agile work environment**, improving team velocity and strengthening collaboration across functions.

EDUCATION

MICROVERSE

Remote Full Stack Web Development Program, Full-Time

March 2022 – December 2022

- Spent 1300+ hours developing projects with JavaScript, React, Redux, and Ruby on Rails.
- Mastered algorithms, data structures, pair programming, and industry-standard Git workflow.
- Mentored nearly 20 junior developers in React best practices and testing methodologies.

NATIONAL UNIVERSITY OF MAR DEL PLATA

Electromechanical Engineering - 3 Years

- Spent 3 years learning about advanced math, physics, and more.
- Worked with many classmates to complete group activities.
